We will wait for a maximum of 45 days for payment for your insurance, after that you are responsible for the balance on the account. Insurance is a contract between you and your insurance company. We are NOT a party to this contract, in most cases. Although we may estimate what your insurance company may pay, it is the insurance company that makes the final determination of your eligibility. You agree to pay any portion of the charges not covered by insurance.

Payments: If there are financial circumstances that prevent you from settling your account at the time of your visit we are more maybe able to work out a payment plan, but you must communicate this with our patient accounts coordinator so arrangements can be made. Failure to do so in 60 days will result in collections action.

Deposit Policy: Due to extensive amount of time our staff and doctors devote to preparing and
reserving uninterrupted time for appointments over 2 hours, we require a deposit of half of your
treatment fee to make your reservation.
Initials

Charges to account: We shall have the right to cancel your future treatment if you have a 60 day outstanding balance. Future visits would then need to be paid in full at the time of service, regardless of balance, or insurance.

Past due accounts: If your account becomes 30-60 days past due, we will take necessary steps to collect this debt. We send out monthly statements and make several attempts to collect your balance. If we have to refer your account to a collection agency, you agree to pay all of the collection costs which are incurred. This may include court cost. If this account is submitted to an attorney or collection agency, if we have to litigate in court, or if you're past due status is reported to a credit reporting agency, the fact that you received treatment at our office may become a matter of a public record.

Returned checks: Checks that are returned to our office for insufficient funds are subject to a \$35.00 returned check fee.

Divorce: In case of divorce or separation, the party responsible for the account prior to the divorce or separation remains responsible for the account. After a divorce or separation, the parent authorizing treatment for a child will be the parent responsible for those subsequent charges. If the divorce decree requires the other parent to pay all or part of the treatment costs, it is the authorizing parent's responsibility to collect from the other parent.

Transferring of Records: You will need to sign a release form if you want to have copies of your records sent to another doctor or organization. It will take up to 24 hours for us to generate your records. You authorize us to include all relevant information, including your payment history.
